

The champion of 1st RMC for CHATS (Media Release: 05/05/2006)

All dear fellow friends and participants:

After the 8-month fierce competition, we have reached the final moment to declare the champion. With a narrow difference, the Team NTU beat the Team Nankai and won the first glorious award. As the administration team, we deeply appreciate every participant's effort for the optimal performance. We are also highly grateful for all cooperating professors, corporate partners, sponsors, and dear friends for the joint project. Last but not the least, we express our special gratitude for the excellent technical support of APEX International (Polaris Financial Group), Risk Advance Inc, and all judges from the leading academic institutions.

All of us have done a fantastic job! Thank you all for the hard and great work. I wish this new initiative would provide valuable experiences and accumulate the momentum for the future advance of risk management and prosperity in Greater China.

With the best wishes!

Hung-da Lin
Program Manager, Admin Team, RMC for CHATS.
